## "Catch A Rising Star"

### The 1991 Triple-A All Star Game

The game itself, which was the final leg of two days worth of activities surrounding the 4th annual Triple-A All Star Game, headed towards a dramatic ending when Gary Cooper of the Tucson Toros, affiliated with the Houston Astros, drove home two runs with an eighth-inning double. The National League stars, scoring four times in the bottom of the eighth, won the game 6-5.

The beginning, which was in December of 1989 at the Winter Meetings in Nashville, meant that Dale Owens, Redbirds General Manager, and his staff would have 18 months to plan all the festivities and activities that would encompass the two day event in Louisville. The game, which would set an All Star Game record for attendance of 20,725, would be played on July 10, 1991 at Cardinal Stadium, home of the Louisville Redbirds. The events that surrounded the game brought the visitors from Triple-A and major league baseball in touch with some of Louisville's landmarks.

Headquarters for the game was The Galt House Hotel, which will host the baseball Winter Meetings in December of 1992. In the grand ballroom on the day of the game, a luncheon was held, honoring the managers, coaches and players selected to participate in the contest. The night before, at Cardinal Stadium, the home run hitting contest, won by Lee Stevens of Edmonton, affiliated with California, drew a lively crowd. Then, it was on to the Kentucky Derby Museum for an evening of fun and conversation that included a chance to see the spectacular collection of "The Greatest Trophies in Sports" put together specifically for the Triple-A All Star event.

While foul weather threatened to put a damper on things throughout the day, at the ballpark everything stayed dry and the game went off without a hitch. The contest was nationally televised by the Prime Network and broadcast over radio nationwide by the Capitol Sports Network.

The series now stands at 3-1 in favor of the National League stars, with the game in 1992 scheduled to be played at The Diamond in Richmond, VA.

## JACK KROL

### MANAGER

Ht: 5-11 Wt: 180 Former Infielder  
Born: 7-5-36 in Chicago, IL  
Resides: Winston-Salem, NC

The eighth manager of the Louisville Redbirds in their 11-year history is 38-year baseball veteran Jack Krol. Jack has managed at all levels, including the majors, where he was 1-1 in 1978 as interim skipper of the Cardinals. Krol also has 10 years of service in the big leagues, serving as the 3rd base coach for both the Cardinals and the Padres. Last season he was a major league advance scout for the Cardinals.

Krol's playing career started when he was 18 years old in the old Sooner State League. As a third baseman, he played for ten different St. Louis farm clubs over the span of 13 seasons, 1954 to 1966. While he never made it as far as AAA as a player, he was considered a prototype hot corner man, one who could hit for power and drive in runs. Jack's final year as a player coincided with his first year as a manager in the Cardinal farm system, 1966. In just 1 game and 2 at-bats, he hit 1.000, going 2 for 2.

Krol managed at stops such as Rock Hill, Cedar Rapids, St. Petersburg and Modesto before taking his first club to the playoffs, losing with his 1971 Arkansas club 3 games to 0 in the Dixie Series to Charlotte. In 1973, despite finishing just 1 game over .500, Jack's AAA Tulsa team defeated Iowa, who had won the East with a record of 83-53, 4 games to 3 to win the American Association. Two years later, 1975, Krol won his second championship, this one in the Florida State League with St. Pete, a team that played to an 88-47 finish, his best ever as a manager. Following his ten year stint in the big leagues, Krol returned to the minors, managing at Las Vegas and Charleston, SC.

Jack and his wife, Liz, have three children; Toni, John and Sharon.

## RULES OF INTEREST

**PLAYER LIMITS** — Roster is set at 23 players until 20 days prior to end of regular season. Rosters can then be expanded by up to 2 players.

**QUALIFYING MARKS** — To qualify for the batting championship, a player must have a minimum of 394 plate appearances. To qualify for the earned run leadership, a pitcher must have at least 117 innings pitched.

**DETERMINING BATTING AVERAGE** — Divide the number of at-bats into the number of hits.

**DETERMINING AN EARNED RUN AVERAGE** — Multiply the number of earned runs by 9; take that number and divide it by the number of innings pitched.

**DETERMINING A SAVE** — A pitcher is credited with a save when he meets all 3 of the following conditions:

- 1) He is the finishing pitcher in a game won by his club.
- 2) He is not the winning pitcher.
- 3) He qualifies under one of the following conditions:
  - a) he enters the game with a lead of no more than 3 runs and pitches at least 1 inning.
  - b) he enters the game with the potential tying run either on base, at bat or on deck.
  - c) he pitches effectively for at least 3 innings.

**DETERMINING SLUGGING PERCENTAGE** — Divide the total bases of all safe hits (homer = 4, triple = 3, etc.) by the total times at-bat (at-bats do not include walks, sacrifices, times awarded first base on interference or obstruction, or hit by pitch).

**DETERMINING ON-BASE PERCENTAGE** — Divide hits plus total walks plus hit by pitch by at-bats plus total walks plus hit by pitch and sacrifice flies. (Times awarded first base on interference or obstruction are not figured into on-base percentage).

**DETERMINING FIELDING AVERAGE** — Divide the total putouts and assists by the total putouts, assists and errors.

**DETERMINING PERCENTAGE OF GAMES WON** — Divide the number of games won by the total number of games played.

**DETERMINING THE MAGIC NUMBER** — Determine the number of games yet to be played, add one, then subtract the number of games ahead in the loss column of the standings from the closest opponent.

**DETERMINING DAY OR NIGHT GAMES** — Any game scheduled to start after 6:00 pm will be considered a night game. If a game is scheduled to start at 6:00 pm and is delayed by rain or any other reason, it is considered a day game. Both games of a two-night double-header will be considered night games. When afternoon and night games are played on the same date and separate admissions are charged, they will be counted as one day game and one night game and will not be included in double-header statistics.

**CONSECUTIVE GAME HITTING STREAK** — Shall not be terminated if the player's plate appearance (one or more) results in a base on balls, hit batsman, defensive interference or sacrifice bunt. The streak shall terminate if the player has a sacrifice fly and no hit.

**CONSECUTIVE GAME PLAYING STREAK** — Shall be extended if the player plays one-half inning of defense, or if he completes a time at bat by reaching base or being put out. A pinch-running appearance shall not extend the streak. If a player is ejected from the game by an umpire before he can comply with the requirements of this rule, his streak shall continue.

**PINCH-HITTERS** — A player shall be considered a pinch-hitter only if he enters the game as a substitute batter and only on his first time at bat which must be before he becomes a fielder. If the team bats around and the pinch-hitter comes up for a second time in the inning in which he first appeared, he will not be considered a pinch-hitter that second time up.

**CURFEWS AND TIME LIMITS** — There shall be no curfew in effect for championship games in either the American Association or the International League. With the prior approval of the League President a time limit may be placed on a game when such time limit becomes necessary in order for either team to meet its next scheduled assignment.

**SUSPENDED GAME RULE** — The suspended game rule observed by the Triple-A Alliance provides for the completion of any game which has not become a regulation game (4½ or 5 innings) and has been stopped because of weather, curfew or other reasons. A game will also be considered a suspended game if it has progressed far enough to be a regulation game and is tied at the point play is stopped. If a game is suspended prior to becoming a regulation game and is continued prior to another regularly scheduled game, the originally scheduled game will be limited to seven innings. If a game is suspended after becoming a regulation game and is continued prior to another regularly scheduled game, the regularly scheduled game shall be nine innings. The above referenced rules in section 4.11(d) will not apply to the last scheduled game between two teams during the championship season or during the playoffs. (Official baseball rule 4.12 will be in effect.) A suspended game shall be resumed and completed immediately preceding the next scheduled single game between the two clubs on the same grounds if at all possible.

**TRANSFERRED GAMES** — When the make-up of a previously postponed game must be replayed in another city, the home team for the game will be the team on whose grounds the game will be played. If a double-header, the second game shall be designated as the transferred game.

**DETERMINING POSTPONEMENT (LAST HOME SERIES)** — During the last home series of a season between any two teams the Umpire-in-Chief shall be the judge of the fitness of the field for starting play both before and during the game as to whether games shall be postponed.
